

## Unmanned Aircraft Systems (UAS)

We have all heard the following terms: Model Aircraft, Drones, UA, UAV, Remotely Piloted Aircraft, Quadcopter, etc. The FAA considers all of these as aircraft. Small Unmanned Aircraft Systems, or sUAS, at a minimum, consist of the unmanned aircraft. Integrating UAS into the nation's airspace presents both opportunities and challenges. Attend and interact with the FAA at this informative meeting. If you know anyone that has purchased or is thinking about purchasing an UAS, bring them to the meeting to learn before you fly. Click the link below and register TODAY.

**Directions:** Take I-485 to exit 44, Hwy 218 east for 14 miles. At Hwy 200, turn left and enter at second driveway on left. There will be a gravel road which leads to the field.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

### Event Details
