

Charlotte FSDO FAAS Team presents:

What is Compliance Philosophy to You ?

Fly-In at the KEHO Regional Airport.

Have you or someone you know ever had a violation? Ever think about how to avoid a violation if it was a simple mistake or just because you were a little rusty? Now think COMPLIANCE PHILOSOPHY !

•Instead of chastising airmen/organizations for an inadvertent deviation, the FAA centers on gathering data from those deviations to predict and prevent future occurrences and to fix the issue with the airman by identifying the root cause and fix the issue with additional training without a violation.
