

Charlotte FSDO FAAS Team presents:

# **CFI Open Forum - Teaching Decision Making and Risk Mitigation Strategies**

How do we teach students Aeronautical Decision Making (ADM) and Risk Management?

Aeronautical Decision Making (ADM) is a systematic approach to the mental process used by pilots to consistently determine the best course of action in response to a given set of circumstances. In other words, it is a systematic approach to risk assessment and stress management. Sounds easy, right? At this FAASafety Team Flight Instructor Open Forum we will explore ADM and how you can teach it to your students to assess risk and manage stress. Flight Instructors, Ground Instructors, and Designated Pilot Examiners are welcome and encouraged to attend. Join your fellow flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

**Directions:** Monroe Executive Airport terminal building conference room.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
