

FAA Safety Team and the Charlotte FSDO presents:

Know Your Light-Sport Experimental Amateur-Built Aircraft

Each year there is a disproportionate number of fatal aviation accidents involving Light Sport, Experimental and Amateur Home Built aircraft. Owner/Operator Maintenance is sometimes indicated as causal factors along with incomplete knowledge about specific aerodynamic characteristics of these aircraft that are not type certificated. At this informative briefing will discuss issues concerning flight testing and aerodynamic characteristic familiarity and promote best practices concerning owner/operator maintenance. Don't miss it. Click on the link below and register TODAY! The safety meeting will be right after breakfast is served at 10:30 am.

Breakfast starts at 8:00 am- All Free

Directions: From Rt 321 take Rt 150/27 E. Main St veer right on E. Highway 27. Travel to and turn left on Highway 73 Travel 1/2 mile and turn left on airport road. Watch for signs.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants.
