

## Beyond the Preflight

Don't Be Surprised! Be Prepared! Pilots must know their aircraft inside and out. Beyond the preflight is designed to assist a pilot by enhancing their aircraft preflight knowledge beyond the standard use of their preflight checklist. This program teaches pilots additional items and techniques they can apply to their preflight inspection in conjunction with their standard aircraft preflight checklist to help reduce their risk of an accident.

**Directions:** Main Meeting room in the airport terminal beside the restaurant.
