

CFI and Pilot Forum and Owner Operator Mechanic Relations

Join us for an engaging and informative forum designed for CFIs, local pilots, and aviation enthusiasts. This session will feature a collaborative discussion on recent pilot deviations, safety trends, and operational best practices, highlighting lessons learned from real-world scenarios. We will also review the current FAASTeam Topic of the Month, Owner-Operator-Mechanic Relations, with emphasis on communication, shared responsibility, and the value of strong working relationships in maintaining aircraft safety and airworthiness.

This is a great opportunity to network, share insights, and support a strong local safety culture. WINGS credit will be available.

From Perth Road turn into Lake Norman Airpark and proceed to 149 Yeager Road. The FBO is the last blue building on the left. Enter the lobby for Race City Flight Ops and take a left and follow the signs to the large UPSTAIRS classroom.

A message from the National FAASTeam Manager
