

We are here to help you! Surviving an FAA Ramp Inspection

For years pilots have lived in fear of the FAA and the ever elusive "Ramp Inspection" any time at any airport. We will discuss what the FAA Inspectors limitations are and what you will be required to show the Inspector if he so desires. Topics will include Weight & Balance, Performance, Preflight Actions, Document necessities, Regulations, and Condition Notices.

Directions: This event will be held at the Fargo Hector International Airport in the old terminal building, on the South East Corner of the Airport.

From I29 and Exit 67 go East on 19th Ave. to the Fargo Air Museum thence turn North onto 16th Street North to 23rd Ave. North thence turn left to the old terminal building. The meeting will be held on the main floor in the Civil Air Patrol Offices.

A message from the National FAASafetyTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
