Turner is the holder of an ATP certificate with instructor, CFII and MEI ratings and a Master's Degree in Aviation Safety, 2010 National FAASTeam Representative of the Year and 2008 FAA Central Region CFI of the Year, Master CFI Thomas P. Turner has been Lead Instructor for Bonanza pilot training program at the Beechcraft factory; production test pilot for engine modifications; aviation insurance underwriter; corporate pilot and safety expert; Captain in the United States Air Force; and contract course developer for a major aeronautical university. He now directs the education and safety arm of the American Bonanza Society, a 9000-member pilots' organization. In his spare time he runs Mastery Flight Training, Inc. With over 4000 hours logged, including more than 2500 as an instructor, Tom writes, lectures and instructs extensively from his home at THE AIR CAPITAL--Wichita, Kansas.

Partial and Total Engine Failures on Takeoff - Studies show that you're far more likely to suffer a partial engine power loss than a complete engine failure on takeoff, yet we don't train pilots on how to recognize and respond to these events. What are your options? How can you confirm whether some or all power is available?
