

Surviving Inadvertent IMC

More times than not, inadvertent flight into IMC does not end well. This can happen to the best of us, so it is wise for everyone to have a plan and understand what to do should it happen to you. Eric Basile is an Assistant Professor of Aviation at the University of North Dakota. He is a former corporate pilot with a background as a flight instructor under both Parts 61 and 141.

Directions: The FAA Safety Center Forum is located next to the Air Traffic Control Tower.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
