

## Pilot Error - Truth or Dare

Have you been wrong so long that you have forgotten what right is supposed to look like? Rex Alexander is a 40 year veteran of the aviation industry and has worked as a rotary wing and fixed wing pilot, A&P Technician, and aviation manager. He will lead a discussion on the impact that the "Normalization of Deviance" has on the cultural acceptance of risk and how it negatively impacts pilot decision making.

**Directions:** The FAA Safety Center Forum is located next to the Air Traffic Control Tower.
