## **Aeronautical Decision Making WINGS Seminar 10:30am**

The decisions that we make in the air can have a profound impact on our lives and the lives of others on the ground. All too often, poor decision making leads to fatalities which could be avoided.

How is your decision making skill? Are you prepared to make those important decisions? Can you make sound judgments in the case of an emergency? What if something goes horribly wrong? These are just a few of the questions that we have to ask ourselves every time that we take to the sky. Join us to learn how we can make better decisions even before we get to the airport.

### **Sam Heiter**

**FAASTeam Program Manager**

will be on hand to discuss good decision making techniques and will help us review aircraft accidents where good decision making could have altered fatal consequences.

**Admission is Free!**

**"In any moment of decision the best thing you can do is the right thing, the next best thing is the wrong thing, and the worst thing you can do is nothing." - Theodore Roosevelt**
