

# Flying the B-2 and USAF Weapons School Instructional Techniques

The evening presenter will share his experience flying the B-2 Stealth bomber and the T-38 Talon. He will share instructional techniques used by Air Force to train combat pilots and ways to apply them to your own flying. This is a unique opportunity to hear from an active duty pilot with firsthand experience flying and teaching in complex aircraft.

**Directions:** As soon as you turn off of US 30 to enter the airport, make an immediate right. Pass the large white hangar and turn left. You will see Gauntlet on your left. Parking is available in front of Gauntlet's offices and west of the south ramp extension.

## A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
