

## PURE flight in a sailplane. Lean about glider flight.

Yes - You can fly a glider during the winter months, especially in a motor glider. Modern gliders are sophisticated, efficient flying machines made from advanced composite technologies. Discover how to sail the sky using the sun's energy in an environmentally friendly, safe, and fun glider. Learn about non-powered aerodynamics, advanced composite glider structures, weather theory, stability, and thermals. Find out what it takes to transition into a glider and earn your Glider Rating. Sign-up for glider discovery flights.

**Directions:** Enter from the east side of the airport off of Lewis Avenue

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

### Event Details

**Sat, Nov 23, 2013 - 10:00 am**

**Skill Aviation**

2346 W. Beach Road

Waukegan, IL 60087

**Contact: SKIP GOSS**
