

# Fox Valley Composite Squadron Open House and FAA Safety Seminar

The FAA has an extensive accident investigation process and maintains a public database of the findings of these investigations. The information in these reports represents a significant effort by the FAA and NTSB, and is a valuable training resource to the flying public. In this seminar, Scott Landorf will describe the FAA accident investigation process and the accident database, and Capt. Arzania Williams will discuss how he has made use of the database in as a training resource in CAP squadron safety briefings. Several incidents will be discussed which illustrate some of the most common causes of aviation accidents.

**Directions:** DuPage County Airport, 32W581 Tower Road (Planemasters Hangar)  
West Chicago, IL 60185. Lat : N 41° 54.41' Lon: W 088° 14.90'

## A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
