

## Avoiding Stupid Pilot Tricks - DPA August Meeting

This seminar on accident causal factors examines a variety of accidents, mostly non-fatal, in which a series of overly optimistic decisions leads to a bent airplane. This is NOT a textbook review of aviation decision making, but rather a look at how in specific cases, pilots allowed themselves to be drawn into increasingly untenable situations.

Carol Para is a Certified Flight Instructor(A/I/MEI), FAA FAASTeam Representative and works for IDOT Division of Aeronautics as an Airport Certification Specialist.

**Directions:** Head to DPA Tower, go to Flight Center conference room.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
