

DuPage FSDO FAAS Team presents:

Small Unmanned Aerial Systems for Search and Rescue

Join the Civil Air Patrol (CAP) for a 2-hour seminar covering everything you need to know about small unmanned aerial systems (UAS), UAVs, RPVs, drones -- whatever you want to call them -- for recreational, photography\videography, commercial operations, search and rescue, law enforcement and more. This session will brief you on applications\usage, safety issues, best practices, Federal Aviation Regulations (FARS), and especially the new FAA FAR Part 107 for Commercial sUAS Operations. Learn how CAP is now augmenting their flight operations with drones for their Disaster Recover and Search & Rescue operations. Static displays, demonstrations and lunch will also be available as part of this CAP Open House seminar.

Directions: This event coincides with the Fox Valley Composite Squadron Open House

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
