

DuPage FSDO at Des Plaines FAASTeam presents:

Chicago Class B Airspace - VFR Operations

Are you intimidated by VFR flying in and around Chicago Class B airspace? Learn the ins and outs of navigating the area's most complex airspace! This Safety Seminar is part of the Aviation Career Day and Fly-In at the Whiteside County Airport. Air Traffic Control Specialist, Mark Zameda, of the Chicago Terminal Radar Approach Control Facility (TRACON) will deliver a presentation focusing on VFR flying in and around the Chicago area, airspace hot spots, and follow up with a question and answer session for pilots.

This is a unique opportunity to have a discussion with one of the nation's busiest airspace approach controllers. Don't miss out on this opportunity! Fly in or drive in!

Directions: This safety seminar will be conducted in Hangar D during our 2nd Annual Aviation Career Day and Fly-In. Enter through the Hangar C northeast entrance and follow the signs for Hangar D - Presentations.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
