

## Mechanics for Pilots

Whether you rent or own, every pilot knows that their airplane needs periodic maintenance. How do you know when the mechanic has completed the work and the plane is ready to fly? This seminar will provide the definitive answer so that you can be sure everything is in order!

**Directions:** The Laporte Aero Club is located on the northeast side of the field near the rotating beacon. Those driving may park off South 150 West; those flying in may park on the east ramp.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
