

Medical Issues for Pilots - Monthly Safety Meeting at PWK by CEPA

Pilots may face obstacles during the FAA medical certification process. Syd will share practical advice and recent changes designed to streamline approval for First, Second, Third Class, and BasicMed.

Syd is a HIMS AME in the FAA's Human Intervention Motivational Study (HIMS) program, supporting pilots deal with issues like DUI, alcoholism, use of SSRI antidepressants, anxiety medications, ADHD, and ADD. He is expert in helping pilots navigate complex situations.

Whether you're facing medical certification challenges now or for the future, learn how to navigate the FAA medical certificate process and better your chances of a successful outcome.
