

EAA Ch 579 Monthly IMC/VMC Club Meeting and FAASTeam Seminar

Using scenario based discussion techniques, this Seminar will feature a detailed discussion on the various critical Pilot decisions that are necessary to land safely while flying in IMC or VMC or a combination of both weather conditions and first flight after return to service from both a Pilot and Controller's perspective. Anyone with the desire to enhance their flying confidence from this FAASTeam Seminar are encouraged to attend and participate.

Due to the lively discussions within our Seminars we try to maintain a 2 hour limit.

Instrument Meteorological Conditions (IMC);
