FAASTeam Greater Chicago GL03 presents:

## **Specialized Tools for Aircraft Use**

Tim Sherwood is the Great Lakes Business Manager for Snap-On Industrial. He is also an A&P mechanic with many years of experience working on vintage and experimental aircraft.

Tim's presentation will focus on the proper application of torque and calibration of torque wrenches, the effects of extensions on the accuracy of torque applied, and tools designed for hard-to-reach places.

This is a one-hour program.

Those flying in may park south of the terminal building; linemen will assist with parking aircraft. Those driving in should park in the west lot opposite the terminal building.

The events will be held in the south classroom on the second floor of the terminal building.

## A message from the National FAASTeam Manager
