

EAA Ch 579 Monthly IMC/VMC Club Meeting

Utilizing the talents of both an Aircraft Controller and a Pilot Presenter, our monthly scenario based discussion techniques, for this Seminar will feature several detailed scenarios, in "What would you do format?", on the various critical PIC (Pilot in Command) decisions that would be necessary to fly safely while mitigating (IMC) Instrument Meteorological Conditions, (VMC) Visual Meteorological Conditions or a combination of both. Along with FAASTeam Topic of the Month (TOM) Winter Operations.

We encourage anyone with the desire to enhance their flying confidence to attend this and future IMC/VMC Club Meetings.

Auto or Aircraft GPS to Aurora IL Municipal Airport (KARR) West Terminal, JA Aviation. Google Maps shows it as Northrop Aviation Dispatch Academy.
