

## Owner/Operator - Mechanic Relations

Aircraft owners and pilots rely on certificated aircraft mechanics and inspectors for continued airworthiness of their aircraft. Many owners are unaware of their own airworthiness responsibilities. This seminar introduces Owner/Pilot/Mechanic responsibilities and authorities with respect to continued airworthiness and offers suggestions for evaluating maintenance facilities and personnel.

This is a one-hour program.

Program will be held in the theater in the main clubhouse building. Those driving in may park in the lot adjacent to the clubhouse. Those flying in should park on the east ramp.
