

## ATC Communications for Flight

We will cover Air Traffic Control (ATC) communications in the Chicago area, focusing on Instrument Flight Rules (IFR) communications, as well as Visual Flight Rules (VFR) communications practices around Schaumburg Regional Airport (06C).

This session is intended for individuals currently studying or about to study for an instrument rating. It is also a valuable preparation for an Instrument Proficiency Check (IPC) or your next IFR flight, particularly for pilots who only occasionally fly under IFR conditions.

Additionally, we will discuss VFR procedures for departures from airport 06C, with particular emphasis on scenarios when DuPage Airport (DPA) is landing aircraft to the south.

Downstairs in the large conference room beneath Pilot Pete's.
