

## EAA Ch 579 Monthly IMC/VMC Club Meeting

Utilizing the talents of both an Aircraft Controller and a Pilot Presenter, our monthly scenario based discussion techniques, for this Seminar will feature several detailed scenarios, in "What would you do format?" on the various critical PIC (Pilot in Command) decisions that would be necessary to fly safely while mitigating (IMC) Instrument Meteorological Conditions, (VMC) Visual Meteorological Conditions or a combination of both.

Additionally, the seminar will cover the FAA's Topic of the Month: Hindsight Bias. We will discuss how this bias hinders learning from others' mistakes and offer strategies for managing controllable factors and planning for the uncontrollable.

We encourage anyone with the desire to enhance their flying confidence to attend this IMC/VMC Club Meeting.

### Event Details

**Thu, Jun 11, 2026 at 19:00 CDT**

**Aurora Municipal Airport (KARR) /  
Sugar Grove IL**

43W730 US30

JA Flight Training Building

Sugar Grove, IL

**Contact: Gary M Budzak**
