

EAA Ch 579 Monthly IMC/VMC Club Meeting

Utilizing the talents of both an Air Traffic Controller and a Pilot Presenter, our Monthly Scenario based discussion techniques, for this Seminar will feature several detailed scenarios, in "What Would You Do Format?" on the various critical PIC (Pilot in Command) decisions that would be necessary to fly safely while mitigating both IMC Instrument Meteorological, VMC Visual Meteorological, Conditions or a combination of both along with other Flight Issues, plus FAA Topic of the Month - Pre and In-Flight WX Resources

We encourage anyone with the desire to enhance their flying confidence to attend this and future IMC/VMC Club Meetings.

Due to the lively discussion that ensue we try to maintain a 2 hour limit of time for these meetings.

Event Details

Thu, Aug 13, 2026 at 19:00 CDT
Aurora Municipal Airport (KARR) /
Sugar Grove IL

43W624 US30
