

CFIT Avoidance Technology

Surprisingly, more than 75% of CFIT accidents occur in daylight and more than one-third of the pilots involved hold instrument ratings! There are numerous CFIT avoidance technologies available to general aviation pilots. This presentation will acquaint you with techniques and technologies that enable CFIT avoidance.

This is a one-hour presentation.

Those driving in may park off Murvilhill Road in front of the clubhouse. Those flying in may park on the east ramp in front of the terminal building.
