

Cincinnati *Chapter of PAMA*

-- October 2010 --

Our Speaker this month will be Jeff Schans, Thunderbolt Manager for Lycoming. The topic will be “Lycoming Engines, Past, Present and Future”.

We will be dining on what ever Don decides on between now and the meeting, so if you have a preferences drop me or Don an e-mail. Send us your suggestions or if you would like to show off your “Iron Chef” abilities, you can provide the dinner, OATS will reimburse your costs.

The Meeting is this Wednesday, October 20th, at the Airman’s Club, Lunken Terminal Building between 6:00 and 6:30 for dinner at the unbelievable low price of three dollars and /or free snacks and drinks courtesy of our friends at Aviall. The business meeting starts about 7:30 with the presentation starting at 8:00.

OATS IA SEMINAR 2010

Mark your calendars, Saturday October 30th for our annual IA Seminar. It will be held at Cincinnati State and Community College’s Aviation Campus in Harrison, Ohio. We have an excellent program as usual. Please e-mail Karin at khartman@ejmjets.com and let her know how you want your name to appear on the IA training certificate. Please register early, we need a count for chicken dinners and we should also have the certificates printed and ready to go after the Seminar.

Nominations for OATS Officers

Its nomination time for the 2011 OATS Officers elections. We will be accepting nominations for President, Vice President, Secretary and Sergeant at Arms. Nominations are in September and October, election in November, officers announced in December, installed in January.

IA Course

We have received some interest in bringing King’s School of Aeronautics to town for an IA Course, let me or Karin know if this is of interest to you and we can get a idea of the cost and schedule.

PAMA Regional Show

PAMA is seriously looking at holding their 2011 Regional Airworthiness Symposium in September/October/November of 2011 in Dayton Ohio. This would conflict with OATS Annual IA Seminar.

PAMA has asked if we would support the 2011 Regional Airworthiness Symposium. The support would **not** be financial, but more along the lines of assisting in getting speakers, promotion, and assisting in manning the PAMA Olympics. Let me know if you would like to volunteer for this event and of any questions and concerns at the next meeting.
