

10 Tips Every iPad Pilot Should Know

The iPad has quickly become required equipment for many pilots and there's no question it has increased safety and reduced the costs associated with flying. 10 tips every iPad pilot should know will include a series of insightful recommendations, strategies and other insight that pilots of all experience levels should know when flying with the iPad.

Topics include hidden software features, iPad "gotchas", flying with ADS-B weather, ForeFlight tips, preflighting your iPad, battery management, mounting, aviation apps you haven't heard of and much more.

Directions: Take I-275 to exit 63 (Eastgate). Go East on SR-32 for approximately 3 miles. Follow signs to Clermont County Airport.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
