

Datalink Weather-How to Use ADS-B and SiriusXM in the Cockpit

Join AirFacts editor and weather guru John Zimmerman for a discussion of in-flight weather services and real world weather flying strategies. From the basics of weather theory to real world tips, this webinar is packed with information you can use on your next flight. Includes a review of actual trips flown with different technology, and the lessons learned. Learn about the options for portable weather receivers, a market that has grown significantly in recent years. From Sentry and Stratus to Garmin GDL and Dual, you'll learn what these devices can do and how to use them in flight.

Directions: Upstairs in the cafe area of Sporty's Pilot Shop/Sporty's Academy building. Come for the seminar, stay for the hotdogs.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
