

The TOLD Card and other PreFlight Safety Tips (Start Time Correction)

Have you ever marveled at how much time it takes to prepare for a flight verses the time it takes to button up the plane after a flight?

Dive into thoughtful planning that happens before the hangar door opens, or even before you hop in the car. The Take-Off-and-Landing-Distance Card can be tailored to house important information. These tools can also make trying a new aircraft a little less daunting and much safer.

Directions: Lane Aviation is located on the right side as you drive toward the terminal on International Gateway. Turn right into Lane Aviation entrance, bear to right of flag pole, enter building with maroon awning (4387) over the door, walk up the stairs to second floor, room on the left.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
