

How To Get Your Home Built Aircraft Certificated

Teaching Points:Recent changes to FAA order 8130-2H

“Airworthiness Certification of Products and Articles” - the document used to guide inspectors in the inspection and certification of your experimental (as well as all other) aircraft.How to interact with your local FSDO so there are no surprises when the time comes to request an inspectionPreparing your aircraft for inspection Some of the interesting things discovered during inspections: Safety wire, lock nuts, cotter pins, placards, and all those other items that cause him and his colleagues headaches or be safety concerns

Directions: The hanger is behind the secured gate, but we have arranged with the airport to staff the gate and we have parking escorts to ensure that cars don't go where they shouldn't. (See attached Map Below)

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
