

Topic of the Month - Enhanced Vision

The Air Evac Lifeteam (Medical Helicopter Unit) will discuss the following.

Teaching Points:

Discuss the scope and safety benefits of enhanced vision technology.

Acquaint pilots with available resources.

Encourage pilots to adopt and maintain proficiency in the use of the technology.

Enhanced and Synthetic Vision Technology – now available for installation in general aviation aircraft – could lower the number of reduced visibility accidents.

Directions: Lane Aviation is located on the right side as you drive toward the terminal on International Gateway. Turn right into Lane Aviation entrance, bear to right of flag pole, enter building with maroon awning (4387) over the door, walk up the stairs to second floor, room on the left.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
