

Show and Tell - Pilot/Owner Familiariation of the Components of an Aircraft Engine

As an aircraft owner/operator, having an understanding of the aircraft engine internal and external components will give you a better understanding of how an engine operates. This is a great learning event.

Teaching Points: Identification of the components of an aircraft engine
How are these components tested and inspected prior to repair/assembly
Basic engine operating principles

Directions: Meeting will be held in classroom 146

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
