

FAASTeam presents:

Monthly Meeting of Columbus EAA IMC Club Mastering the Art of Instrument Navigation

In instrument flying, as well as in training, the pinnacle of our planning and preparation can often plateau at the final approach segment. This is "The Show, the exciting part; the crescendo before the breakout! In flying, as in music, the crescendo doesn't always lead to the finale. On rare occasions, the breakout doesn't happen. We know what to do next, right? In this discussion, we will identify how well-tuned airmanship is a critical ingredient in what could be the most critical segment of an approach: the missed approach. We will discuss how to combine our knowledge of instrument procedures, and our skill in aircraft control, to prepare for that once-in-a-while "Let's get outta here!"

Directions: Go to <http://www.quest-centers.com/> for a map and/or directions to the Quest Conference Center. (The QCC is southeast of the I-71-Polaris Parkway Exchange). Enter at the Main Entrance, you will be directed to the meeting room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
