

## Ohio State University Drone Rodeo

Back by popular demand, our Drone Rodeo provides an annual platform to explore all things drones. Seasoned professionals as well as those new to the field – and even passersby – will enjoy the opportunity to learn more about uncrewed aerial systems (drones). This new technology is taking off, with rapid innovations that can be used across a range of industries.

The event features flight demonstrations, industry and academic partner tables, student organizations and networking and recruiting opportunities for professionals and students. New this year is the Fly-in, where attendees can observe equipment in action and learn about opportunities in the drone space.

Join us August 23! No registration required. The event is free and open to students, industry partners and the public.
