

## CFIT for the Midwestern Flyer

NTSB accident data suggest that pilots of all levels continue to be involved in CFIT accidents. The General Aviation Joint Steering Committee (GAJSC) released a study highlighting distraction along with several other factors. This presentation will focus on the CFIT hazards most likely encountered by Midwestern pilots. A review of several "flat land" CFIT accidents will be included.

### Teaching Points:

- Explore the myths versus reality of CFIT accidents.
- Discuss unique CFIT risks for Midwestern operations.
- Provide best practices to help mitigate CFIT risk.
- Review Maximum Elevation Figures and how
