

## EAA Chapter 9 VMC Club -Traffic Pattern Procedures

This seminar highlights procedures pilots should use to maximize training and safety while conducting operations in the VFR traffic pattern.

Teaching points:

- Pre-flight preparation before going to a new airport
- Traffic pattern entry and radio calls
- Pattern spacing - speeds and bank angles
- Preventing loss of control (LOC) accidents
- Stabilized approaches and go-arounds

At the entry gate, push the call button and inform them you are attending a class. Park in the lot to your right and enter the door under the maroon awning and take the steps to the right to the second floor classroom.
