

## EAA Chapter 9 IMC Club - Aeronautical Decision Making in IMC

This session explores Aeronautical Decision Making (ADM) when faced with unexpected icing conditions.

Teaching points:

- Impact of experience on decision making while in actual IMC.
- The role of the PIC versus ATC.
- Maintaining awareness of suitable alternates and location of VMC.

At the entry gate, push the call button and inform them you are attending a class. Park in the lot to your right and enter the door under the maroon awning and take the steps to the right to the second floor classroom.
