

EAA Chapter 9 VMC Club - VFR Cross Country and Flying to Oshkosh

This seminar highlights procedures pilots should use to plan a long VFR cross country flight and safely arrive at Air Venture (Oshkosh).

Teaching points:

- Route selection to include refueling stops and navigating around Chicago airspace
- Weather sources, analyzing weather trends and the pre departure weather briefing
- Air Traffic Control, what to expect and how to fly the Fisk Arrival
- Lessons learned from previous Air Venture flights

At the entry gate, push the call button and inform them you are attending a class. Park in the lot to your right and enter the door under the maroon awning and take the steps to the right to the second floor classroom.
