

Personal Minimums - Wind

With the arrival of spring, it's time to 'knock some of the rust off' of our gusty and crosswind take-offs and landings. Come for a discussion of techniques and establish your own personal minimums for safe flight for the year ahead.

Directions: Seminar will be held in the main conference room of the administration building. Aircraft flying in may tie down on the north ramp across from the terminal building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
