

Advanced Preflight After Maintenance

Come join our discussion on the many things that can go wrong after maintenance. This seminar will be presented from both a Pilot and Mechanic's perspective that might help you prevent an unwanted accident or incident. We will be reviewing common maintenance and pilot errors. Print out the attached documents to reference during the course of the discussion.

This seminar just could help save you from a very intense situation in the future!

Directions: Meeting will be held in the Airport Administration Building. Fly-in aircraft should park on the north side of the ramp, opposite the Administration Building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
