

Surprise! Surprise! The Seminar

The General Aviation Joint Steering Committee feels that improved pilot training in Safety Risk Management, emergency procedures, maneuvering flight as well as Human Factors can reduce the number of fatal Loss of Control accidents. This is a scenario based, interactive program following a pilot, his family and some associates while conducting routine General Aviation maintenance and flight activities.

Directions: Meeting will be held in the Black Forest Room; immediately to the left after entering the building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
