

General Aviation Survival

Research has determined that a significant number of general aviation fatalities could be avoided if pilots were better prepared and equipped to survive forced landings and crashes. Survival training is strongly recommended, as is carrying appropriate survival equipment on board the aircraft.

We will cover:

1. The benefits of survival training and equipage.
2. Look at some of the available resources

Directions: Meeting will be held in the Airport Administration Building. Fly-in aircraft should park on the north side of the ramp, next to the Administration Building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
