

Grand Rapids FSDO FAASTeam presents:

**Reminder! - Call Sign FLIGHT CHECK - Who Are Those Guys?**

The FAA's Flight Inspection Services (FIS) ensures the integrity of instrument approaches and airway procedures that constitute our National Airspace System (NAS) infrastructure and the Federal Aviation Administration's (FAA's) international commitments. This is accomplished through the airborne inspection of all space and ground-based instrument flight procedures and the validation of electronic signals in space transmitted from ground navigation systems. You've probably heard the call sign "Flight Check" on the frequency, or have seen a blue and white FAA King Air make a low pass down an airport runway. Who are those guys and what are they doing? Glen Freeman, an FAA Flight Inspection pilot will discuss the purpose of the FAA Flight Inspection Services program.

**Directions:** Meeting will be held in the main terminal building conference room.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
