

How to Prepare for and Pass Practical Tests

The forum will be lead by DPE Jason Blair and with guest DPE Edward Verville to talk about best practices to prepare for practical tests. The content will be appropriate for those preparing for upcoming practical tests, and CFIs who are preparing students. The goal is to ensure that applicants are using the ACS appropriately for safety and the development of knowledge, skill, and risk management abilities to pass their tests. Special focus will also be given to helping understand the requirements to be prepared and successful during practical tests.
