

VMC Club Monthly Meeting

The Tecnam P2010 sitting on the ramp caught your attention, and its owner offered you a deal. Come for a flight as safety pilot for some IFR practice on a beautiful day? You can even both log the time, he says. Off you go in the first new GA airplane you've ever experienced ... but the situation is getting increasingly uncomfortable as there seems to be way more traffic than you'd expect in the spot this pilot chose for practice. It's his airplane and you have no idea how this IFR practice works. That said, is this situation dicey enough for you to speak up? Safety Pilot Assuming Command

Meeting will be in the Riverview Airport Office.
