

VMC Club Monthly Meeting

When entering the pattern at an airport, a helicopter lingers over the runway during a stop-and-go and distracts you—so much you almost stall. You recover and must go around—but how? Do you keep it simple and predictable? Do you keep the helicopter in sight? Or do you get completely out of the way? You can't do all of them at once. What will you do?

Meeting will be in the Riverview Airport Office.
