

Monthly Pilot Safety Forum

What should every pilot know before an FAA ramp check, and what can we learn from the inspector's perspective?

Join us for an engaging FAASTeam safety seminar featuring Tom Kozura, FAASTeam Program Manager with the Grand Rapids Flight Standards District Office.

A former FAA Principal Operations Inspector, U.S. Air Force veteran, 121 airline pilot, flight instructor, and aircraft mechanic, Tom brings extensive experience and a unique perspective on aviation safety.

Learn what to expect during FAA ramp inspections, required documentation, common compliance issues, pilot responsibilities, and best practices for interacting professionally with inspectors.
