FAASTeam presents:

VMC Club Monthly Meeting

A miscommunication with your spouse leads to a late go-around … and a direct hit on a deer. You climb away safely, but you're unsure what damage was done to the prop, nose gear, or engine—if any. As the sun sets, you weigh your options: Try to land again, or head elsewhere for bigger runways and better services or just go home to your base and mechanic? What are the potential benefits & dangers of your decision?

Meeting will be in the Riverview Airport Office.

A message from the National FAASTeam Manager
